

Closeout³⁶⁰

Closeout³⁶⁰ facilitates collaboration and coordination between the contracting office, finance office, program office, auditing office and the contractor to assist timely contract closeout.

All acquisition artifacts related to the contract are easily accessed from a single electronic record, providing a complete history of the contract, saving time and effort in searching for documents that may no longer exist locally, or are tucked away in a file drawer.

Automated workflow and system-guided process enablement greatly streamlines the closeout processing that can be tailored to each organization's unique requirements. By leveraging the closeout checklist, Closeout³⁶⁰ tracks excess funds for de-obligation, and provides cost adjustment support. Property inventory issues concerning disposition of Government Furnished Equipment/Material/Information are managed by Closeout³⁶⁰.

Closeout³⁶⁰ increases efficiency and minimizes duplication of effort and missed steps in the contract closeout process.

About Procurement³⁶⁰®

Procurement³⁶⁰ is made up of four modules: Plan³⁶⁰, Procure³⁶⁰, Manage³⁶⁰, and Closeout³⁶⁰. It represents the next generation of information gathering and knowledge management solutions. Procurement³⁶⁰ is built upon the integrated Microsoft® Dynamics XRM / SharePoint and Outlook platform -- and designed specifically by a team of government acquisition experts -- to meet the needs of government acquisition organizations.
