

Manage³⁶⁰

Contract management begins after the contract has been awarded, and includes a variety of activities from modifications of delivery orders to invoice review, approval, and final payment. Manage³⁶⁰ is a comprehensive tool designed to improve contract management and ensure responsiveness to customers and best value to taxpayers.

Manage³⁶⁰ improves contract management by offering collaboration tools to government personnel who are designated to administer the contract, and provides them with a 360 view of all related acquisition artifacts to help them achieve a clear and mutual understanding of the contract requirements. Manage³⁶⁰ maintains a complete historical package of each records related artifacts through integrated document control via SharePoint and Outlook Activities (email, tasks, appointments) management ensuring that all information is available when needed for easy access and viewing.

Managers appreciate the real-time dashboard reporting and data analysis needed to stay apprised of workflow issues, and retrieve accurate and timely data. Interactive displays of acquisitions provide views of costs and schedule status, and drills down to task assignments and due dates.

About Procurement³⁶⁰®

Procurement³⁶⁰ is made up of four modules: Plan³⁶⁰, Procure³⁶⁰, Manage³⁶⁰, and Closeout³⁶⁰. It represents the next generation of information gathering and knowledge management solutions. Procurement³⁶⁰ is built upon the integrated Microsoft® Dynamics XRM / SharePoint and Outlook platform -- and designed specifically by a team of government acquisition experts -- to meet the needs of government acquisition organizations.
